PROJECTS

AI Personalized Interview Platform
Jan 2025 - Feb 2025
AI Personalized Interview Platform
Jan 2025 – Feb 2025
An AI-powered web platform that helps users prepare for job interviews and plan career paths through personalized mock interviews, career roadmaps, and skill assessments.
Skills : Python, React, TypeScript, Flask, Prisma, WebSocket, MongoDB, OpenAI
Key Features:

- AI-based mock interviews with feedback
- Career roadmap generation
- Skill gap analysis
- Curated resources and tips
- Progress tracking and analytics

Government schools and college, Rajanakunte ↗
Jan 2024 - Feb 2024
I developed a government website for Rajanakunte College using the MERN technology stack. The website was designed to streamline administrative processes and improve user experience through modern web development practices. I implemented a user-friendly interface with React, ensuring responsiveness and ease of navigation across devices.
Skills: MongoDB, Express.js, React, Node.js

CalamitiQ ↗
Aug 2024 - Sep 2024
CalamitiQ
Aug 2024 – Sep 2024
A real-time disaster management platform that centralizes critical information to help communities respond effectively during emergencies.
Skills: React, TypeScript, Node, Flask, OpenAI, WebSocket, ShadCn, MongoDB
Key Features:

- Real-time shelter availability and location tracking
- Disaster visualization with live data
- Educational content for preparedness and recovery
- Community forums for support
- AI chatbot for instant safety guidance

SKILLS

- MongoDB
- React
- SQL
- Firebase
- Figma
- scikit-learn

- HTML
- Node.js
- JavaScript
- TypeScript
- Artificial intelligence
- Power BI

- CSS
- Express.js
- PostgreSQL
- MySQL
- Pandas

ADDITIONAL DETAILS

- • 1st Runner-Up, CodeSprint 3.0 Hackathon (4 Apr 2025) • 1st Place, DevNectar Competition (24 Jan – 3 Feb 2024) • 1st Runner-Up, CodeSprint 2.0 Hackathon (4 May 2024) • 1st Place, HackSphere Hackathon (28 Mar 2025)
